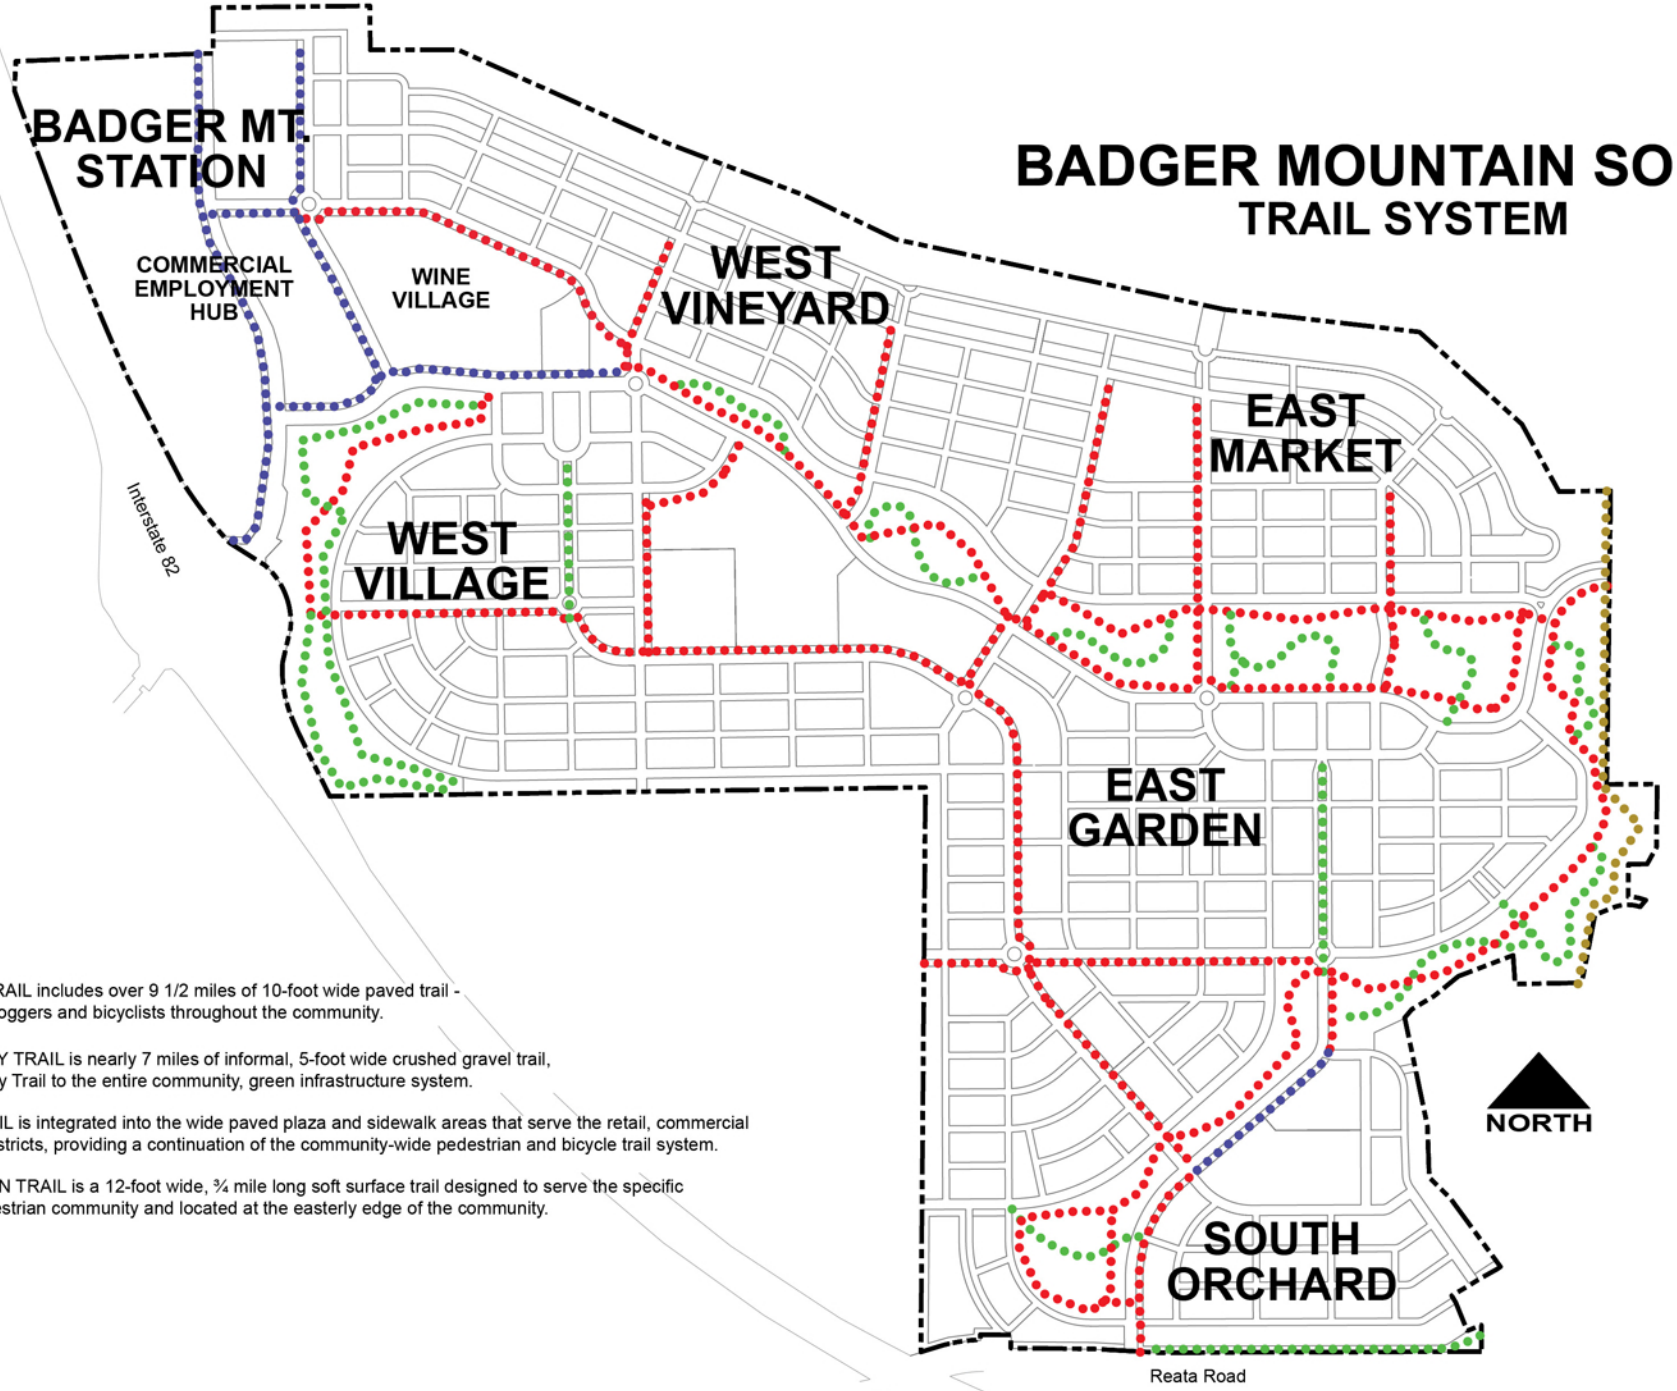
BADGER MOUNTAIN SOUTH
TRAIL SYSTEM



LEGEND:

- The PRIMARY TRAIL includes over 9 1/2 miles of 10-foot wide paved trail - serving walkers, joggers and bicyclists throughout the community.
- The SECONDARY TRAIL is nearly 7 miles of informal, 5-foot wide crushed gravel trail, linking the Primary Trail to the entire community, green infrastructure system.
- The URBAN TRAIL is integrated into the wide paved plaza and sidewalk areas that serve the retail, commercial and mixed-use districts, providing a continuation of the community-wide pedestrian and bicycle trail system.
- The EQUESTRIAN TRAIL is a 12-foot wide, ¾ mile long soft surface trail designed to serve the specific needs of the equestrian community and located at the easterly edge of the community.
